Book Synopsis

Science has never been so easy--or so much fun!With The Everything Kids Science Experiments Book, all you need to do is gather a few household items and you can recreate dozens of mind-blowing, kid-tested science experiments. High school science teacher Tom Robinson shows you how to expand your scientific horizons--from biology to chemistry to physics to outer space.You ll discover answers to questions like:Is it possible to blow up a balloon without actually blowing into it?What is inside coins?Can a magnet ever be "turned off"?Do toilets always flush in the same direction?Can a swimming pool be cleaned with just the breath of one person? You won t want to wait for a rainy day or your school s science fair to test these cool experiments for yourself!
